Next

9. You are asked to **scan a QR code** using the Microsoft Authenticator app on your mobile device. This step links your account to the app for secure login.

Steps:

- Open the **Microsoft Authenticator** app on your phone.

- Tap **“Add account”** and choose **“Work or school”**.
- Use your phone to scan the QR code shown on the screen.
- Once scanned, click the **“Next”** button to proceed.

If you're unable to scan the code, there's a **“Can't scan image?”** option to enter the setup details manually.

Keep your account secure

Microsoft Authenticator

Scan the QR code

Use the Microsoft Authenticator app to scan the QR code. This will connect the Microsoft Authenticator app with your account.

After you scan the QR code, choose "Next".

Github Setup

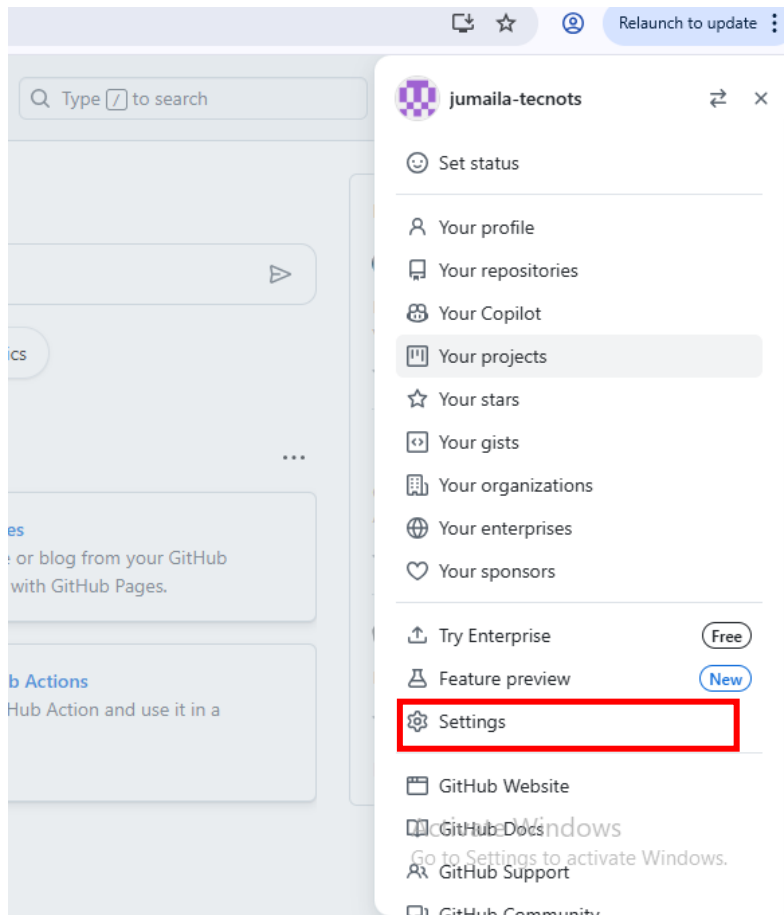

1. Click the URL: <https://github.com/>
2. Choose create account
3. Enter your Tecnots email address.
4. Enter your password.
5. For the GitHub username, use the format: [yourname-tecnots](#) (adding [-tecnots](#) at the end is mandatory).
6. Click Next.
7. A visual puzzle will be shown. Correct it, then submit
8. A verification code will be sent to your Outlook email.
9. Open Chrome using your Tecnots user account.
10. Login to OneDrive
11. Launch Outlook from the Microsoft 365 apps.
12. Once Outlook opens, copy the security code from the email.
13. Paste the code on the GitHub verification page.
14. You will be redirected to your GitHub account.

Personal Access Token (PAT) Creation

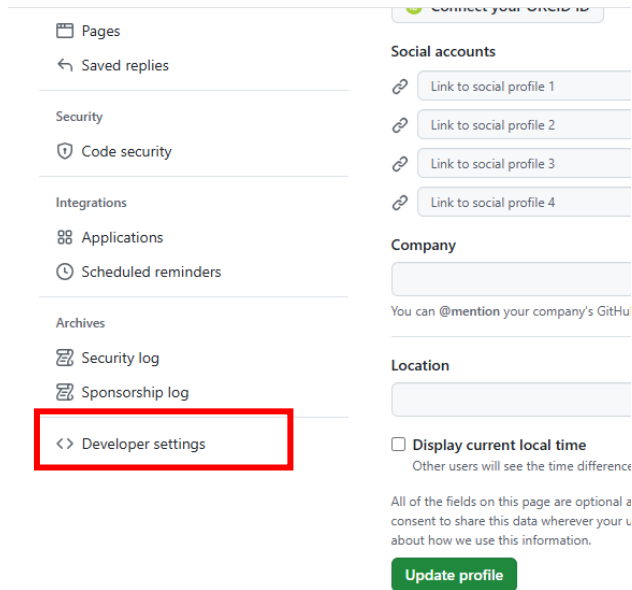

12. Open your **GitHub profile**.

13. Click on **Settings**.

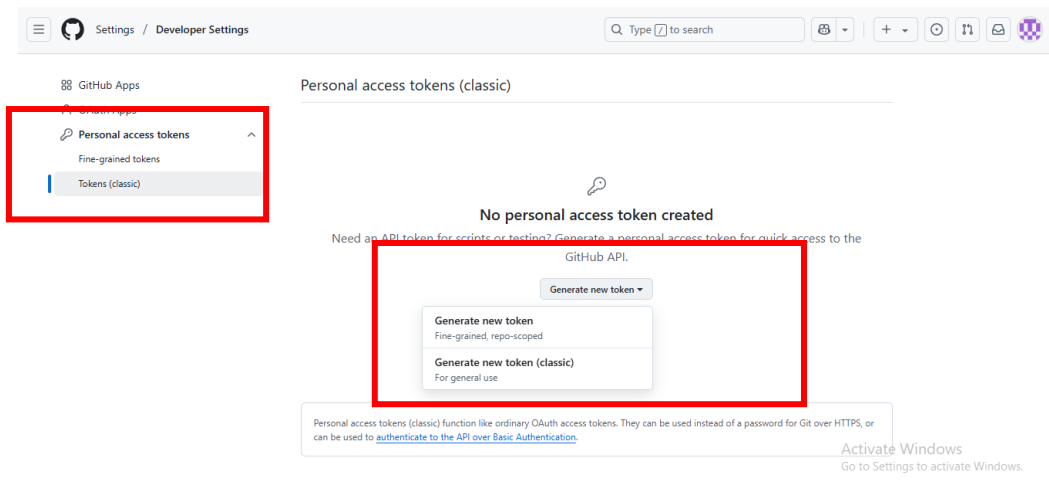

14. Scroll down and click on **Developer settings**.

Contributions & activ

15. In Developer settings, go to **Personal access tokens**.

16. Select **Tokens (classic)**.

17. Click **Generate new token**, then choose **Classic**.

18. In the **Note** field, enter: yourname-tecnots.

19. Set **Expiration** to: No Expiration.

20. Under **Select scopes**, check **all Checkbox** for full access.
21. Click **Generate token** and **copy the token** immediately.

Save Credentials in Sticky Notes

22. Open **Sticky Notes** or any preferred note-taking app.
23. Enter the following details for your reference:
 - **Tecnots email address**
 - **GitHub username** (yourname-tecnots)
 - **PAT token**
 - **Authentication string** in the format: *username:PAT_TOKEN*

Teams Setup

1. **Download and install Microsoft Teams** (if not installed):
Go to <https://www.microsoft.com/en/microsoft-teams/download-app>
2. **Open the app** and click **Sign In**.
3. **Enter your Tecnots account email and password**.
4. Check yes to all tab if you are using teams in your company system
5. **You're logged in** and can now use Teams.
6. If you're already using Teams, click on your profile at the top, then choose 'Add another account and follow the steps
